

Decaar Algae

Decaar Algae treatment from £95 can treat face and body:

Much talked about treatment by the industry gurus, can take your goals from great to exceeding. Here's how algae Decaar can help you.

The average healthy persons cell turnover ranges every 28-35 days and as we get older that slows down more to around 45 days. This means we look more aged, more dull, lack glow, lack lustre & that youthfulness etc.

What this fabulous treatment does is give you that fresh renewed skin we desire in around 72hrs!

Key benefits:

- increase rapidly yet safely cell turnover
- increase fibroblasts therefore boosting collagen and elastin
- reduces sebum, fights bacteria to combat acne production
- safely works on all skin tones including darker
 - normalises thickness of skin
 - works on dark spots & pigmentation
 - works on reducing all types of scarring
 - smoothed texture and tone
 - helps reduce pore size

And what's great is it gives the deepest of deep cleans! The multi-step sequence leads us through using a range of techniques, new products & ingredients- the method is working biologically on the inside out. 100% safe and In most cases suitable for all, including sensitive skin types likes rosacea.

Consultation required for all treatments. Prices subject to change.
