

Advanced skin services:

All advanced skin services include deep pore cleaning where applicable and required.

Medical grade chemical peels from £55:

Peels are selected and combined based on your individual requirements for a wide range of skin concerns.

Medical grade chemical peel including EGF AHA booster from £75:

Enhance the power of your peel with our AHA+EGF booster which gives a rapid mesotherapy-like skin stimulation without injections and visible desquamation

Radio frequency combined with dermaplaning /peel or microdermabrasion £75:

Microdermabrasion combined with dermaplaning/peel or radio frequency £75:

Oxygen + fusion therapy combined with radio frequency, microdermabrasion or dermaplaning £75:

High frequency facial £75:

Perfect for problematic skin concerns. Helps prevent and reduce acne congested skin types by reducing sebum production, it is also anti inflammatory and anti bacterial. Helps improve the appearance of hyperpigmentation. This treatment is combined with oxygen fusion/ LED Therapy or chemical peels

GSH Age Reverse £75:

Using a tripeptide formula targeted to support and reverse the signs of ageing. Treatment also includes LED red light therapy- which in its own rights has huge anti ageing properties, but combined with a powerful targeted light initiating application mask the results are tenfold. A powerful antioxidant based treatment which provides the skin with a radiant glow.

ATA peel including medical grade sheet mask £75:

The ATA peel removes dead skin cells, stimulates new skin cell growth and encourages cellular turnover, uncovering a new layer of skin that appears smoother, clearer, more even and vibrant. It softens fine lines, minimizes superficial age spots and other skin discolourations. It also diminishes the appearance of acne scars.
